For relaxed travel
Truma manoeuvring systems

Valid from January 2019

heating | cooling | controlling

More comfort on the move
**Complete control**

**Manoeuvre effortlessly, arrive relaxed**
Your camping holiday has never started as quickly! Just arrived and your caravan is already parked — exactly where you want it. With the tried-and-tested manoeuvring systems by Truma you can position your caravan at the site in just a few minutes, with complete ease.

And when you’re leaving the campsite with many fond holiday memories, couple your caravan to your car precisely and with no external assistance. Ask your Truma dealer about the best Mover for your caravan.

[www.truma.com/mover](http://www.truma.com/mover)
Manoeuvring systems for caravans
Extremely superior: With the Mover XT you can manoeuvre your caravan safely and precisely on to any site – even around corners and bends. Depending on the model, the powerful motors can handle inclines of up to 13 percent. The manoeuvring aid is extremely compact and lightweight.

• Light: A weight saving of up to 20 kg.
• Precise: 100 % directional stability, like being on rails.
• Exact: Accurate coupling to the towing car.

Truma Mover XT / XT2 / XT4

Truma Mover XT
for single-axle caravans up to 2350 kg
Technical data
• Power supply: 12 V
• Maximum power consumption: 150 A
• Average power consumption: 28 A
• Weight: 28 kg

Truma Mover XT4
for twin-axle caravans up to 3100 kg, 4 motors
Technical data
• Power supply: 12 V
• Maximum power consumption: 150 A
• Average power consumption: 37 A
• Weight: 60 kg

Truma Mover XT2
for twin-axle caravans up to 2400 kg
Technical data
• Power supply: 12 V
• Maximum power consumption: 150 A
• Average power consumption: 28 A
• Weight: 28 kg

Truma Dynamic Move Technology

Maximum manoeuvring accuracy by remote control
Every Mover XT contains the tried-and-tested Truma Dynamic Move Technology. It allows you to steer and accelerate your caravan smoothly and gently. You are always in control when you position your caravan at the campsite or couple it to your car.

The Mover XT remote control is intuitive to operate: Steer with the rotary button and accelerate smoothly with the slide control. Both control elements are separate so you can adjust turning radius and speed at the same time. When you release the remote control, the Mover stops.

• Engage and disengage the drive rollers at the touch of a button.
• Gently manoeuvre your caravan to its exact position.
• 100% directional stability – also on uneven ground.
• Visual and acoustic signals indicate when the battery is low.

5-year Truma parts warranty
Your Truma Partner provides a 5-year parts warranty for all Truma Movers.
Manoeuvre single-axle caravans smoothly

Mover SX moves single-axle caravans with a total weight of up to 2000 kilograms safely and reliably. With its stepless control technology, you can manoeuvre your caravan smoothly, jerk-free and accurately. The caravan can also be easily rotated on its own axis (360°).

• Accurate: Smooth steering and acceleration, precise manoeuvring and coupling.
• Convenient: Intuitive remote control with control knob and slide control.
• Powerful: Manoeuvre effortlessly and safely, even on inclines of up to 13 per cent.
• Simple: Engagement and disengagement with a lever movement from one side – no cranking required.

Technical data
• Power supply: 12 V
• Maximum power consumption: 120 A
• Average power consumption: approx. 20 A
• Weight: 35 kg

5-year Truma parts warranty

Your Truma Partner provides a 5-year parts warranty for all Truma Movers.
Truma Mover
PowerSet

A system weight saving of up to 20 kg

The PowerSet, together with the recommended battery, provides the power for the Mover. It is perfectly coordinated to it and consists of the BC 10 charger, a circuit breaker, terminal clamps (for fixed installation), a second charging cable and a temperature sensor. Truma recommends the high-performance Optima® batteries* for which a specially adapted BC 10 charging curve is available.

PowerSet light
For Mover XT and Mover XT2 we recommend using the Optima® YT S 2.7* (38 Ah) battery with the PowerSet:

- Battery weight: 11.6 kg
- Mover XT / XT2: 28 kg
- System weight: 39,6 kg

PowerSet
For Mover XT4 and Mover SX we recommend using the Optima® YT S 4.2* (55 Ah) battery with the PowerSet:

- Battery weight: 19.5 kg
- Mover XT4: 60 kg
- Mover SX: 34 kg
- System weight with Mover XT4: 79.5 kg
- System weight with Mover SX: 53.5 kg

PowerSet plus
For greater self-sufficiency we recommend using the Optima® YT S 5.5* (75 Ah) battery with the PowerSet:

- Battery weight: 26.5 kg

• Compact: The BC 10 charger is small and very light.
• Practical: Remove the BC 10 in just one easy step, thanks to the plug-and-play connection.
• Versatile: Charge many different battery types quickly and reliably.
• Complete control: Information about the current charge status is shown on the LED display.

Technical data
BC 10 charger

- Charging current: max. 10 A
- Input voltage: 220 – 240 VAC, 50 – 60 Hz
- Battery capacity: 20 – 200 Ah
- Battery type: all types of 12 V lead-acid batteries (wet, maintenance-free, Ca/Ca, AGM and gel); please use the recommended AGM batteries in conjunction with the manoeuvring systems.
- Dimensions: 230 x 95 x 50 mm (L x W x H)
- Weight: 750 g

*Batteries are not part of the Truma scope of delivery. Please contact your specialist dealer directly. Prices for PowerSet with matching battery available on request from your specialist dealer.
Our roots are in caravanning ...

... for the past 70 years and in the future

Truma has been the leading specialist for caravan accessories for 70 years. We set standards from the very beginnings of our company history and we will continue to do so. For example, in 1961 we pioneered caravan heating without which winter camping would not be possible. Today, we are market leaders in this area – and, for some time, it has also been possible to control Truma heaters with an app. Our prime objective has always been to make sure that campers have the best possible holiday experience. So that we will also be able to do this in the future, we are constantly looking for the best ideas.

Reliability
• Family company in the third generation – independent and autonomous.
• Well thought out products and services.
• High-quality equipment that seldom requires repairs.

Competence
• Many years of expertise developed over generations.
• Many innovative product ideas that move tomorrow’s market.
• Smart, future-oriented, holistic development.

Quality
• Highest demands in the entire supply chain.
• Zero-defect manufacturing at the production location in Germany.
• Automated check of all products for many different parameters.

Service
• Technically competent, fast and friendly help.
• Personal phone support in eleven languages.
• Top service with 500 partners in more than 30 countries.

Always there for you

Truma Service
If you need assistance, we’ll be glad to help – no matter where you are: we’re always close by with our Truma mobile service technicians, in our Truma Service Workshop in Putzbrunn or with one of around 500 Service Partners throughout Europe and in the most important camping regions worldwide. With the right tools, original spare parts and, of course, more than 70 years of experience. Ensuring you can get things up and running again quickly.

Truma Partners
Truma Partners have a wider range of services than other caravan dealers.

Truma Partners ...
• ... provide a 5-year parts warranty on selected products,
• ... offer you the complete range of Truma products,
• ... are trained regularly,
• ... are often also Service Partners.
